## Best OF THE BEST

MCLAREN'S SENNA UNVEILED • RESIDENCE IN THE AFRICAN TROPICS • RED CARPET FASHION  
TWO DAYS OF LUXURY IN DUBAI • CHAMPAGNE FOR THE SUMMER

72.

**FOOD AND WINE**

**TINY BUBBLES** – Champagne is not only for special occasions but should be enjoyed as a celebration in itself, of the intricate process that infuses the tiny bubbles into the wine that “make you feel happy, make you feel fine” – **PAGE 72**

**SEVENTH HEAVEN** – Aviation and food are unlikely bedfellows given the chicken or beef options in economy class, although the fare in upper class is often not half bad – **PAGE 82**  
**DO I HAVE AN ADVANCE ON R22MILLION?** – The Cape Wine Auction is now regarded as the most significant international wine charity auction ever conceived in South Africa – uniting the industry around a single goal of raising money for education – **PAGE 88**

**GETTING AROUND**

**HAPPY DAY'S** – Construction of the new 68m M/Y Day's, the first of the CCNY ICE YACHTS range, is on schedule and proceeding as planned in collaboration with AES YACHT – **PAGE 100**

**SWISS ROLLS** – If there were such a thing as automotive royalty, the Rolls-Royce Phantom would be it. After all, what other single nameplate can claim a heritage that dates back 92 years? – **PAGE 108**

**BORN LEGEND** – The new McLaren P15 bears the name of legendary Formula 1 driver, Ayrton Senna, honouring its status as the ultimate McLaren track car, legalised for the road – **PAGE 114**

**OPEN LI'L MAC** – Vivien Natasen savours the new McLaren 570s Spider – **PAGE 118**

**FINAL SAY**

**FROM THE PUBLISHER** – **PAGE 128**

# HAPPY DAYS

**C**onstruction of the new 68m M/Y Day's, the first of the CCNY ICE YACHTS range, is on schedule and proceeding as planned in collaboration with AES YACHT. Characterised by a strong family feel, it maintains the concept of being one with the outdoors, thanks to ample full-height glass surfaces.

#### THE 68M M/Y DAY'S AT A GLANCE

- Impressive internal volumes for more than 1,800 GRT
- 2.7 metres of average interior headroom throughout two and a half decks
- The garage holds both a 9m custom tender and an 8m tender
- A huge beach club
- A helipad on the foredeck
- Great attention has been paid to the owner's privacy, with private access to the sky-lounge and the business meeting room
- The owner will use the yacht for both leisure and business
- International suppliers have been selected as partners for this new range

**M/Y DAY'S – THE NEW 2017-18 DETAILS**

Part of ICE YACHTS EXPLORER VESSELS all-new range, M/Y Day's will accommodate 12 guests including owners. The owner's area occupies the entire upper deck and is characterised by a spacious cabin forward.

The apartment-like feel is created by the use of large continuous full-height windows all around. Two large walk-in wardrobes, two generous en-suite bathrooms, plus a gym and massage

room are also present. The guest area is on the main deck with three big VIP cabins, one guest cabin with single beds and an additional supernumerary cabin. All guest cabins are equipped with en-suite bathrooms and walk-in closets.

Generous crew accommodation is provided for up to 18 crew members on the lower deck, plus the captain's cabin on the bridge deck.

The yacht has five decks, with an overall length of 68m and a beam

of 13m. The internal volumes are very impressive, at more than 1,800 GRT. These volumes are one of the biggest strengths of the M/Y Day's. Interior headroom on the main and upper decks reaches 2.7 metres. Full height windows emphasise space and create a direct rapport to the exterior environment.

The interior spaces are characterised by a minimalistic design with an elegant and warm feeling due to the use of refined materials where natural lighting is the main element.

Two large tenders are present in the lower deck garage, while a helipad is located forward on the bridge deck. The

beach club with shower and head is on the lower deck, a large pool welcomes you at the entrance to the main deck.

The yard and designer paid special attention to the owner's privacy, developing private and direct access to the sky-lounge business meeting room straight from the tender's berth. The owner will use the yacht both for leisure and business and the design layout has taking this into consideration.

The yard has also prepared a mock-up of one of the VIP cabins with all hard finishes. All equipment has been selected and ordered from well-known reputable international brands and suppliers.

The interior spaces are characterised by a minimalistic design with an elegant and warm feeling

Project management on the client's behalf is carried out by Mr. Jacques Potgieter. With his extensive sea going and operational management experience in the industry, his input is vital to ensure that the vessel is being built to industry standards and that it will be functional, safe and cost effective to operate and maintain.

This was facilitated by his involvement in the preliminary stages of the project, more than six months before any steel was cut.

**A RANGE WITH A STRONG FAMILY FEEL**

A 55 metre and a 75 metre yacht will enrich the CCNY ICE YACHTS range, designed in collaboration with the Italian studio HOT LAB.

"These two concepts", said Antonio Romano from HOT LAB, "are united with the 68m already under construction by their shared family feel and characterized by tense and masculine lines, while maintaining the

concept of being one with the outdoors, made possible by the presence of ample glass surfaces running full-height."

Another characteristic of these new models is undoubtedly the careful attention paid to the distribution of interior volumes, with a 2.7 metre headroom on the main and upper decks on board the M/Y My Day's: the new models will also reach the record levels in their category. ➔
