Numarine 47MXP

Turkish yacht builder Numarine has revealed its latest creation: the 47MXP. The acronym stands for Mediterranean Explorer, not as a limitation, but as a celebration of the refined, sea-centric lifestyle typical of Mediterranean cruising. The 47MXP captures this spirit with bold innovation and enhanced comfort. Measuring 46.7 meters in length and boasting four expansive decks and 498 GT of volume, the 47MXP is designed for long-range exploration without compromising luxury. With a remarkable range of 6,000 nautical miles at 9 knots, it's built to cross oceans, while twin MAN engines delivering 1,450 hp each allow for a top speed of 16 knots and cruising speed of 12. Based on the proven hull of the 45XP, with its 9.25-meter beam, the new model introduces major upgrades, notably in the beach club area. Aft, a redesigned layout with a pool and opening balconies brings guests even closer to the water,

evoking the ambiance of an elegant floating resort.

The yacht offers generous living areas, including up to six guest cabins, a main-deck owner's suite with private terrace, two pools (one also in the bow), a spacious sun deck with bar and lounges, and an upper deck ready for tender storage or outdoor sports.

The interiors, designed by Hot Lab – part of the Viken Group – feature warm, elegant, and contemporary styling, catering to the tastes of sophisticated owners.

"The 47MXP marks a significant step forward in our mission to blend adventure with uncompromising comfort," said Numarine Chairman Ömer Malaz. "We won't build it on spec, but several clients have already shown great interest."

More than just a yacht, the 47MXP is a new benchmark for luxury explorer vessels—designed for those who want to travel far, in absolute style.
