BILGIN YACHTS
50M MEGAYACHT CAMILA

Bilgin Yachts is delighted to unveil Camila, the latest 50-meter marvel from the acclaimed Bilgin 163 series. Launched at the shipyard's Istanbul headquarters, Camila redefines modern luxury with her innovative design and meticulous craftsmanship. Slated for delivery to her owner for the 2025 season, Camila stands as a bold statement of elegance and performance in the superyacht world.

At 50 meters, Camila combines expansive outdoor spaces, a sleek profile, and impeccable interiors to set a new benchmark in yachting. Ismail Şengün, CEO of Bilgin Yachts, shared his pride in the project: "The launch of Camila reflects the culmination of our dedication to excellence and the synergy between our team and the owner. We're thrilled to deliver a vessel that truly represents the best of Bilgin Yachts."

With exterior styling and naval architecture by Unique Yacht Design, Camila boasts a sporty silhouette that harmonizes seamlessly with her generous spaces. "Her design is a testament to the art of blending functionality with beauty," said Emrehan Özgün, founder of Unique Yacht Design. According to Özgün, as a brand-new model, with 20% larger areas than 48-meter yachts, this yacht offers even more space for guests to enjoy.

Inside, the renowned Hot Lab studio has curated interiors that exude modern sophistication. Enrico Lumini, Partner and Head of Design at Hot Lab, commented, "We are proud to present the interior design of M/Y Camila, the second 50-meter yacht we have developed for Bilgin. Building on our long-standing collaboration, this project represents a natural evolution of the design direction

established for the shipyard. Every element on board has been carefully crafted to offer both sophistication and comfort, while reflecting the refined style characteristic of Bilgin's fleet."

Frank Grzeszczak Jr., Vice President of FGI Yacht Group, played a pivotal role in bringing this project to fruition. "I feel honored to have merged this partnership between an experienced and demanding client, and Bilgin Shipyard. It has been nothing short of an exceptional experience. Our 50 meter project, lovingly named Camila, will gracefully cruise the Mediterranean this summer with her new proud owner. She will undoubtedly turn heads as she cruises the Mediterranean this summer."

Camila is powered by twin 1,450 CAT engines, delivering a top speed of 16.5 knots with impressive fuel efficiency. Her layout offers 20% more space compared to traditional 48-meter yachts, providing expansive areas for relaxation and entertainment. Berkay Yilmaz, Commercial Director of Bilgin Yachts, highlighted the yacht's bespoke features: "We take immense pride in seeing this project come to fruition. Our team has worked tirelessly, and the result is a truly stunning yacht. The distinctive elegance of M/Y Camila will undoubtedly capture attention wherever she goes. She is another stunning yacht which will cruise to US Waters and I am grateful to work with an experienced yacht owner who was heavily involved with her design process with Hotlab. Interiors have been described as a beautiful, bespoke homage to the owner's lifestyle and elegantly designed elements inside and outside made her a stunning yacht. I personally thank you for our collaboration with the owner and Frank Grzeszczak, FGL."

Following the success of Snow 5 and Starburst III, Camila strengthens Bilgin Yachts' reputation as a leader in bespoke superyacht construction. Her striking design and unparalleled craftsmanship ensure she will leave an indelible mark on the global stage.

BRIEF TECHNICAL SPECIFICATIONS

Hull configuration: Displacement Hull material: Steel

ABOUT BILGIN YACHTS

Bilgin Yachts is a boutique shipyard at the European side of Istanbul, building bespoke 50 to 120+ meter luxury superyachts. It has been a family-run business for five generations since the early 1900s. With its 700+ highly-skilled craftsmen, performing 90% of the work in-house, the shipyard operates in five facilities covering more than 79,450sqm. The shipyard facilities also comprises manufacturing areas, a state-of-the-art marine furniture factory, a comprehensive mechanic, hydraulic, stainless-steel and upholstery workshop, all of which work closely until a project is ready for launch. Headquarters located in the West Istanbul Marina, which is approximately 40 minutes from the Istanbul Airport, Bilgin provides high-quality yachts to its customers.
