**NUMARINE 45XP**

This is the new flagship in Numarine's seven-model lineup of long-range cruising yachts. Range is reportedly 6,000 nautical miles at 9 knots, which makes this yacht a possible ocean-crosser. The yacht has a 12-knot cruise speed and a 16-knot top hop, according to the shipyard. Gross tonnage is just shy of 500. Hot Lab was not only tapped to design the interiors, but also given significant latitude following work on four or five other yachts for Numarine in recent years. The standard layout is five staterooms, though Numarine says it can be adjusted to suit a client's preferences. The master stateroom has direct access to a private space at the bow.
