A photograph of a luxury yacht deck. In the foreground, there is a swimming pool with clear blue water. Along the edge of the pool is a built-in wooden deck with several large, striped cushions in shades of blue, white, and grey. A dark, textured canopy covers the upper part of the deck. In the background, the sea is visible under a clear sky, with distant land and mountains on the horizon.

Acqua Chiara Collection

Tailor-made Hospitality

An exclusive selection of exceptional homes, icons
of elegance and refinement, extraordinary destinations
where luxury meets timeless beauty

11

With a passion for hospitality and a love of beauty, Acqua Chiara Collection has curated a selection of villas and a superyacht in locations where comfort meets elegance, and every detail is designed to offer an unforgettable experience. The properties are designed to welcome and make each guest feel part of an exclusive world of harmony, privacy, and personalized attention.

Unlike many properties, Acqua Chiara Collection owns the villas and yacht within the collection. This allows for the utmost attention to every stay, enhancing every detail and ensuring the utmost care for all the phases of the experience.

In contemporary luxury, exclusivity is increasingly measured by the possibility of accessing private spaces to enjoy unique and authentic experiences. Acqua Chiara Collection interprets this need through a selection of luxury villas and a superyacht in extraordinary locations in southern Italy: Villa Bismarck on the island of Capri, Masseria Lamacerese in Polignano a Mare, Puglia, Villa San Francesco on the island of Ischia, Villa Chiara in Acciaroli, south of Salerno, and the superyacht Acqua Chiara, dedicated to luxury charters.

Villa Bismarck is suspended between sky and sea, where elegance meets the magic of one of Capri's most iconic views. Situated in a privileged position, the villa dominates the island's crystalline waters, offering a never-ending view that changes color with the hours of the day, providing ever-changing emotions.

Masseria Lamacerese is located in a corner of Puglia where time slows down and invites you to rediscover the pleasures of simple things. Here, between sky and olive trees, the "masseria" (ancient fortified rural structure, typical of Puglia, which served as a self-sufficient farm, home and refuge) becomes an experience to be enjoyed slowly: a private oasis where you can find peace, inspiration, and the simple, profound beauty of Puglia. A place you don't just visit, but live, breathe, and take with you.

Villa Chiara is immersed in a pristine natural
